## Profile

---

Motivated BSCS graduate with focused knowledge of software design, development and testing. My practical expertise lies in creating responsive, dynamic, and interactive web applications using front-end library React.js coupled with proficiency in backend technologies like Node.js, Express.js, MongoDB. This enables me to craft robust and scalable full-stack solutions.

## Education

---

2023/07	<b>BSCS</b>
Sargodha	<i>University of Sargodha</i>
	Completed with 3.12 CGPA

## Skills

---

React	Node.js
Express	MongoDB
API Development	Postman/Swagger
Git/Github	Docker

## Projects

---

### Personal portfolio

Using *HTML5, CSS3 and JavaScript*

Single page Web Application describing my work and services

### Weather App

Using *Node.js and Express js*

Web application built for checking weather around the world. The site uses data from map box and weather stack API

### Backend Website

Using *Node.js, Express js, MongoDB and JWT*

Login, Logout, Register and Secret Page services, which are using hbs, bcryptjs, jsonwebtoken and mongodb, as database

### Todos App

Using *React.js*

Crud performed for todos

### Expense Tracker

Using *React.js, Node.js and MongoDB*

Login, Register and Transaction Crud is performed

## Experience

---

I have devoted half a year in honing my expertise in various concepts, tools, and techniques of Web Development. Through online courses, tutorials, and practical projects, I have developed a strong proficiency in applying these skills in real-world application.
